# Subject Index to Volume 36

Acquisitions 205
Adoption 37
Ambiguity 23
Analytic hierarchy processes 221
Asynchronous communication 139
Authoring systems 221
BPR success 301
BPR tool competence 301
Business process reengineering (BPR) 273, 301
CASE evolution 37
CASE tools 301
Category 205
Change process 165
CIM 1
Cluster analysis 151
Co-operative work 165
Communication media 329
Comparative study of IT 151
Complexity 23
Computer aided software engineering (CASE) 301
Computer simulation 55, 109
Computer-mediated communication 139
Conflict diagnosis 55
Conflict resolution 23
Continuous improvement 287
Decision making 165, 313
Decision making/processes 221
Decision style 313
Decision support system 55
Design methodology 121
Design process 165
Development level of IT 151
Development risks 263
Distributed-work 329
E-mail 139
Electronic brainstorming 139
End-user computing satisfaction (EUCS) 109
End-user computing 93
Enterprise knowledge engineering 165
Ethical issues 213
Evaluation of planning system 1
Exploratory factor analysis 77
Group Support Systems (GSS) 139, 321
Guidance 165
Hypermedia 121
Impacts 37
Implementation 77
Information privacy 213
Information system plans 77
Information system selection 63
Information systems strategy 247
Information systems 221
Information technology strategy 77
